NORTHANFON CO., April 13, 1852.

Messrs. Tyler & Adair: I have been afflicted with Rheumof signature of age the 18th of this month; the attacks were at times so severe as to render me helpless; I have tried various remedies to very little effect. Last October I was attacked in my shoulders, sides, back, and hips; I could not rest, day or night; I could not move any part of my body without crying with pain; at this time I also tried many remedies, increasing and external and without receiving any solid. ternal and ext-rnal, without receiving any relief; I was a last advised to try HAMPTON'S VEGETABLE TINCTURE before I had taken one bottle of which I felt much better and as I continued taking it I felt strength coming into m back and limbs, and my stemach strengthened and revive every way; I have taken five bottles, and am much bette than I ever expected to be. I intend to use it whenever need it, and would recommend it to the afflicted, believing Yours, ELIZABETH BAGWELL.

Messrs. Mortimer & Mowbray: Mrs. Elizabeth Bagwell is a lady of the highest respectability, wealthy and influential. The cure in her case speaks volumes in favor of this wonderful Tincture. Several other persons we have heard of have derived great benefit from its use in our county. We are entirely out of the article, and have daily anxious inquiries to know when we will receive another supply. We expect large sales of it from the present demand, and want you to send us a box as soon as possible.

Yours,

TYLER & ADAIR.

Gault, do., of seven years; one from Mr. Oldham, Baltimore Custom-house, of a dreadful case of dyspepsia; one from Jno. Luke, of a case of dyspepsia and general debility; and one from J. K. Stapleton, esq., of Baltimore, with hundreds of others.

REV. VERNON ESKRIDGE, U. S. N. PORTSMOUTH, (Va.,) Aug. 18, 1851.

Mr. J. E. Boush—Dear Sir: Whi e I am in general opposed to Patent Medicines, candor compels me to state that I have great confidence in the virtues of Hampton's Vegetable Tincture. For several months past I have used it in my family, and in Dyspepsia, loss of appetite, cizziness, and general debility, with entire success. So far as my experience extends, therefore, I take pleasure in recommending it to the afflicted as a safe and efficient remedy.

I am, respectfully, yours, VERNON ESKRIDGE, Chaplain in the U. S. Navy.

KRAUSER'S PATENT CLOVER-SEED HAR-

KRAUSER'S PATENT CLOVER-SEED HARVESTER
IS BEFORE THE PUBLIC FOR THE FIRST TIME!
ITS utility is beyond comparison with any other farming implement now in use. It takes the seed from the field, ieawing the straw or grass all standing. It weighs two hundred and fifty pounds, is drawn by one horse, and gathers from ten to twelve acres per day. The fingers, or teeth, catch all the heads, the revolving knives cut them off and throw them back into the box, which will cross a twenty-acre field without emptying. The heads are then loaded into a wagon and taken directly to the mill for cleaning, thus diminishing the labor three-fourths, and saving all the reed. This machine comes so low that every farmer will have it, and pays the manufacturer 300 per cent.

E. WHEELER, Agent for Washington. E. WHEELER, Agent for Washington.

CROSS KEYS, WASHINGTON TOWNSHIP, CAMDEN CO., N. J., September 4, 1851.

We, the undersigned, do certify that we have seen Mr. Krauser's Patent Clover Harvester in operation, and it has given perfect satisfaction. It has gathered many of the farmers' clover in this neighborhood—it is all that Mr Krauser and his bills represent it to be. The farmers have given one-half for gathering and threshing.

This is to certify that Mr. G. J. Naylor has gathered clover off of a sixteen-acre field of mine, which has been pastured two months with ten head of cattle, and it produced six bushels and a half and one peck of seed. I gave him two-thirds for gathering and cleaning. I think his machine instructe, and answers all the purpose that is intended.

The following points out the profitable nature of the HARVESTER: RAUSER'S PATENT CLOVER-SEED HARVESTER.—
We have conversed with a number of Farmers, and they are
of opinion that there are at least 3,000 acres in each township in Camden or Gloucester county, New Jorsey. Admitting there are but 1,000, it is said that each acre will yield
from 1½ to 3 bushels. Reducing it to a certainty of yielding
but 1 bushel per acre, what will it cost to gather and thresh

Perhaps no invention offers greater inducements for a profitable investment than the Harvester. For an enterprising young man, of good business habits, a large sum of money could without doubt be realized from the sale of rights in the different States of the Union not yet disposed of. By calling at this office, it can be demonstrated satisfactorily that men of moderate capital could not choose a better or more money-paying business.

Large Whig Meeting in New Hampshire.

CONCORD, July 5, p. m. This being the anniversary of the battle of Chippewa, a large and very enthusiastic meeting has been assembled, with but one day's notice, to ratify the nomination of Scott and Graham. Wm. Kent, esq., president. Spirited and elouent speeches were made by Messrs. Nesmith, Edwards, and Stevens, New Hampshire delegates to the National Convention, and Hon. Jas. Bell, ex-Governor Colby, A. H. Cragin, and H. A. Belows, esqs., and others. The enthusiasm for Scott and Graham is spreading like wildfire among our granite hills, equalled only by the Harrison campaign. Several thousands were present in the evening, and the day closed with the ringing of bells, firing of cannon, and fireworks. Three times three lusty cheers were twice given for Scott and Graham at the close of the fireworks.

aused no little exultation among their new allies n this direction. It has answered to some extent the purposes of a galvanic battery, by imparting to the enervated system of Democracy a fictitious energy. From the extravagant boasting of many, one would suppose that in this accession the party had received strength and influence sufficient to counterbalance all that is wanting in their standard-bearer, and that with such generals to command and direct the movements f the Southern wing of the army, they will be able completely to exterminate in the coming contest the great conservative Whig party in that direction. But unless we are very much mistaken in the signs of the times, they will find their new helps about as beneficial to their cause as a wild refractory horse in a steady team. And unless we have been led into a most egregious error by some of the knowing ones from that direction, the mortification and chagrin of the perfect Chippewa defeat which some of the bolters will have to encounter, not only in the Presidential election, but when they again ap-Fancy Cut Paper for Picture Frames

ample reward for their unnecessary and unjustifiable course! So far from this imaginary stampede striking, as many prophesied it would, terror and dismay into the Whig ranks, its only tendency has been to unite them the more closely together, and make them more sanguine of success. And we have no doubt that its only effect will be something like the firing of Paddy's gun-kill hardest

We have had the privilege, during the last few days, of conversing with many persons from the surrounding country, and from every direction we receive the most cheering reports of the prospects of the success of Scott and Graham. The weather has been excessively warm for the

ast seyeral days-so much so, that there is but little out-door business being done. Many of the Whigs of our town intend going to Alexandria to-night to attend the ratification

meeting. THE CHOLERA.-This fatal disease prevails exensively on board of vessels coming from Chagres with passengers, and exists in most of the towns in the valley of the Mississippi. Whether it will extend its ravages North, is yet to be seen; but we see from the New York Herald that its appearance in that city is dreaded, as that paper calls "on the mayor and corporation to h themselves, and take immediate steps for the protection of health, by providing for the thorough cleansing and purification of the city, which was never more filthy or better prepared to promote the extension and mortality of the cholera than it is at present." We hope that our corporate authorities will also take timely measures to guard the city from the cholera and other discases. Much may be done by keeping the streets, lanes and alleys, yards and cellars, in a clean and pure condition. Impure atmosphere generates disease; and there can be no doubt that the cholers can be entirely avoided, or its effects mitigated, by cleanliness. The hot season is upon us, and too much care cannot be exercised by the corporate authorities and by private individuals to preserve the health of the city.
